COLLANOL®
FOR HEALTHY JOINTS AND BONES
food supplement
Pack of 20 caps • 680 mg
Pack of 60 caps • 680 mg

Collanol®
UNDENATURED COLLAGEN + CURCUMIN

INDICATIONS: Collanol® contributes to the normal functioning of the locomotor system, and helps to maintain the normal condition of bones, joints and cartilage.

ACTION: The two patented active ingredients of Collanol® – undenatured type II collagen (UC-II®) and micelle curcuma extract (NovaSOL®) – are synergistically active in favour of the active recovery of the normal joint, tendon and cartilage conditions, and help to improve mobility.

Five main types of collagens are known in medicine, with only one of them being responsible for joints, tendons and cartilage – that is collagen type II. Undenatured type II collagen, contained in Collanol®, is derived from chicken cartilage through a patented low-temperature manufacturing process, in which the natural three-dimensional collagen spiral remains intact. Thanks to this triple spiral, when reaching the small intestine, undenatured type II collagen causes an immune response called oral tolerance. Special immune cells (Treg) are triggered, which have the ability to retain the process of degradation of the articular cartilage and, with prolonged action, to turn it towards the reactivation of the natural collagen synthesis process in the human body. As a result, self-recovery and re-construction of cartilage tissues is stimulated.

Due to its unique mechanism of action, UC-II® has high efficacy at low doses – just 40 mg per day (the content of 1 Collanol® capsule).

The effectiveness of Collanol® is additionally enhanced by the incorporation of the highly concentrated micelle extract of curcuma NovaSOL®, a rich source of curcumin. Curcumin has a powerful antioxidant potential. It has been clinically proven that thanks to patented solubilizing technology and its micelle formula, curcumin incorporated in Collanol® achieves 185 times higher bioavailability than regular curcuma extract. This also determines its high efficacy at low doses. Laboratory tests show that 500 mg of micelle curcumin is equivalent to approximately 5000 mg of natural raw curcumin powder. Thanks to the antioxidant properties of curcumin and its ability to cleanse the body from nitric oxide, Collanol® contributes to a slower pace of cell ageing processes and to maintaining the health and activity of:

- **Joints (helps to protect the cartilage tissue – chondrocytes)**
- **Gastrointestinal tract**
- **Brain**
- **Skin**

DUOCAP™ ENCAPSULATION TECHNOLOGY

Collanol® is manufactured in France as per DUOCAP™ (capsule-in-capsule) patented technology for combination and dual release of ingredients. The technology allows liquids to be inserted in hard gelatin capsules without any thermal treatment of the active substance.

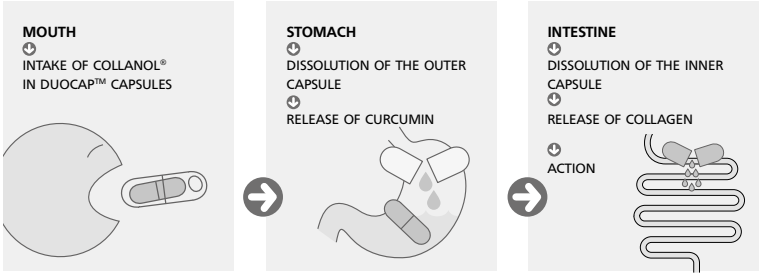
DUOCAP™ gelatin capsules are:

PRESERVATIVE FREE | LACTOSE FREE | GLUTEN FREE | SUGAR FREE | GMO FREE

DUOCAP™ DUAL RELEASE OF INGREDIENTS

DUOCAP®

Collanol® in DUOCAP™ capsules preserves the biological activity of the ingredients and guarantees their unobstructed access to the small intestine where they are absorbed.



RECOMMENDED DAILY DOSE: 1 capsule daily, with at least one glass of water.

Ingredients of the recommended daily dose	1 capsule	RDA*
Micelle solubilized curcuma extract (Curcuma longa rhizomes extract – NovaSOL®, min. 6% curcuminoids)	470,6 mg	**
Vitamin C	80 mg	100%
UC-II® with undenatured type II collagen	40 mg	**
Manganese	2 mg	100%
Copper	1 mg	100%
Vitamin D3	5.5 µg	110%

*Recommended daily allowance for adults (with daily food consumption of 8400 kJ/2000 kcal).

**RDA not determined.

CONTENT: Micelle solubilized curcuma extract (Curcuma longa rhizomes extract – NovaSOL®, min. 6% curcuminoids); polysorbate 80 (emulsifier); hydroxypropyl methylcellulose (glazing agent); ascorbic acid; microcrystalline cellulose (bulking agent); UC-II® with undenatured type II collagen; copper bis-glycinate; ascorbic acid (antioxidant); manganese citrate; cholecalciferol; iron oxide (colour).

CONTRAINDICATIONS: There are no known contraindications.

STORAGE CONDITIONS: Keep at room temperature (10˚– 30˚C), do not expose to direct light. Keep out of the reach of children.

WARNINGS: Do not exceed the recommended daily dose. Do not use the product as substitute to the balanced diet. Consult a doctor or a pharmacist in case of concomitant intake of anticoagulants.
